

Remarks — General

In response to the Examiner's Letter, the Applicant has pointed out the difference between the Present Application and the Prior Art, making the former to be sufficiently distinguishable from the latter, thereby capable of improving the Prior Art performance. For example, the Prior-Art device is costly and inconvenient, whose operation requires many switches to be simultaneously used and deployed. The Present Application does not suffer from such disadvantages.

Conditional Request for Constructive Assistance

The Applicant has argued the favorable conditions of the Present Application not foreseen or anticipated by the Prior Art. If, for any reason this Application is believed to be in full condition for allowance, This Applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. § 2173.02 and § 707.07 (j) in order that the undersigned can place this Application in allowable condition as soon as possible and without the need for further proceedings.

Very Respectfully,

Hoton How
